

Trinetra Reefer Trucks Tracking System

Refrigerated vans and trucks carry valuable and perishable cargo. Managing a fleet of refrigerated vehicles is a difficult task. To protect the vehicle and its contents, fleet managers must understand each vehicle's location and its compliance with temperature control objectives.

Customers such as those in the cold storage industry have a cold chain they need to protect and a solution from Trinetra can help them measure and manage temperatures inside refrigerated vehicles. Trinetra is a web-based fleet management solution for managing cold storage refrigerated trucks in an efficient manner.

Solution Offerings

- Real time monitoring of refrigerated vehicles / fleet
- Timely information about each reefer's location
- Temperature status monitoring during door open & close
- Temperature violation alerts through email or SMS
- Ongoing temperature updates at regular intervals
- Identify & overcome logistical inefficiencies
- Provide customers with real time tracking of consignment
- Efficient fleet maintenance schedules & dispatch
- Intelligent reports on fleet utilization and much more
- Delivery of goods at the right time

Key Benefits

- Increased cargo security
- Prevent theft, loss, or spoilage
- Enhanced safety & productivity
- Improved customer service
- Reduced fuel costs
- Extended vehicle lifetime
- Keep your perishables fresh & cool at all times

Trinetra offers comprehensive solutions for your business challenges in Vehicle Tracking and Fleet Management by integrating all 3 core elements of AVL solutions namely **Location, Tracking & Security**.

Trinetra is an **award winning** product that uses industry leading web technologies and cutting-edge hardware design to bring you the highest quality of GPS Vehicle Tracking and Fleet Management Solutions.

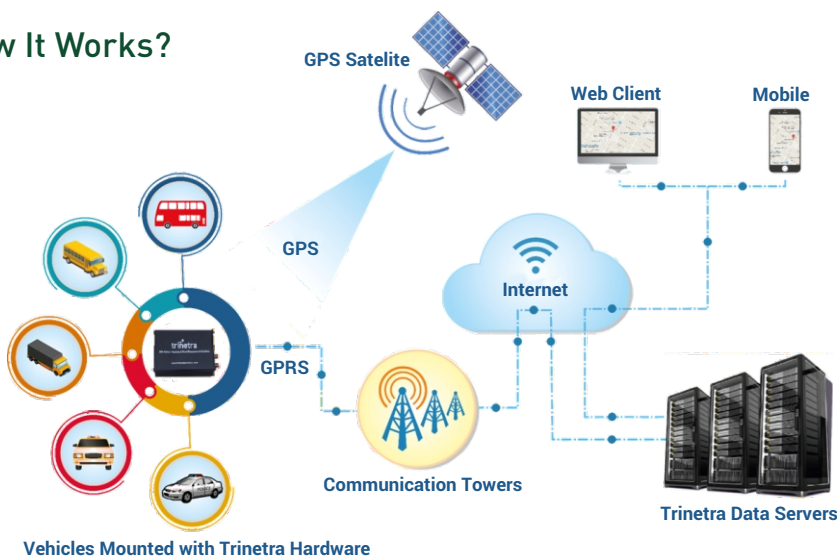

Key Features

- Vehicle Tracking
- Digital Mapping
- Graphical Dashboard
- Extensive Reports
- Fleet Maintenance
- Driver Management
- Route Optimization
- Notification & Alerts
- Temperature Sensing
- Mobile Data Terminal
- RFID Integration
- Enhanced Security

Unique Advantages

- Integrated GPS Hardware & Software
- Fully Hosted Cloud Computing Solution
- Real Time Position Information
- Sensor Integration
- Geozones & Custom Landmarks
- Proprietary Protocol
- Multilingual Support
- Multi Map Support

How It Works?

Trinetra Wireless is an innovative technology company with proven domain expertise, an advanced hardware design centre in Canada, a world-class embedded engineering and software development centre in India.

With local presence in 8+ global locations, we also work in partnership with channel partners and system integrators worldwide to provide quality solutions to our clients.
