

Trinetra OEM Partner Program

In today's highly competitive transportation market it is vital for any manufacturer to choose the right partner to manage their fleet of vehicles. Each vehicle requires individual attention in terms of processing and customer handling to ensure that the manufacturer's brand values are properly represented.

Trinetra helps Original Equipment Manufacturers (OEMs) connect and communicate with consumers and vehicles where it matters most - on the road. When your vehicles are integrated with our platform, you can sell with confidence anywhere in the world. Being an industry leader in offering fleet management solutions, we know more about how to make your fleet smarter, greener and intelligent too.

Solution Offerings

- Accelerate time-to-market strategy for GPS Vehicle Tracking
- Provide baseline data to internal engineering teams
- Designed for OEM to increase back end profit
- Real time tracking of vehicles
- Faster response times on service calls
- Offer your dealer network a capable telematics solution with up-selling opportunity
- Easy installation requiring no additional software
- Efficient maintenance schedules for extended vehicle life
- Intelligent reports on fleet utilization & much more
- Extensive services & dedicated support

Key Benefits

- Improved compatibility
- Better overall integration
- Effective monitoring of vehicle usage
- Better customer service
- Enhanced vehicle & driver safety
- Reduced fuel costs
- Increased operational performance
- Reduce your carbon footprint

Trinetra offers comprehensive solutions for your business challenges in Vehicle Tracking and Fleet Management by integrating all 3 core elements of AVL solutions namely **Location, Tracking & Security**.

Trinetra is an award winning product that uses industry leading web technologies and cutting-edge hardware design to bring you the highest quality of GPS Vehicle Tracking and Fleet Management Solutions.

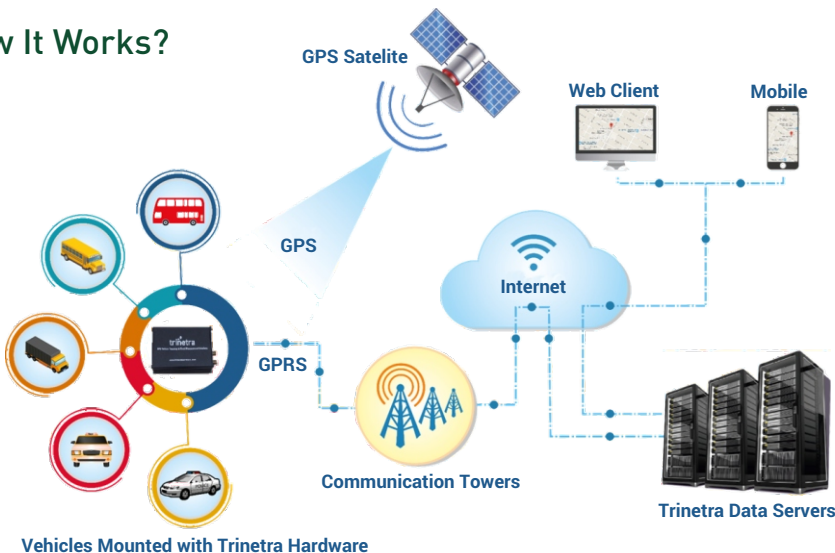

Key Features

- Vehicle Tracking
- Digital Mapping
- Graphical Dashboard
- Extensive Reports
- Fleet Maintenance
- Driver Management
- Route Optimization
- Notification & Alerts
- Temperature Sensing
- Mobile Data Terminal
- RFID Integration
- Enhanced Security

Unique Advantages

- Integrated GPS Hardware & Software
- Fully Hosted Cloud Computing Solution
- Real Time Position Information
- Sensor Integration
- Geozones & Custom Landmarks
- Proprietary Protocol
- Multilingual Support
- Multi Map Support

How It Works?

Trinetra Wireless is an innovative technology company with proven domain expertise, an advanced hardware design centre in Canada, a world-class embedded engineering and software development centre in India.

With local presence in 8+ global locations, we also work in partnership with channel partners and system integrators worldwide to provide quality solutions to our clients.
